

# ERASMUS

On Monday the 28th of March 2022 15 students from year 8 and 4 teachers flew to Madrid, Spain where for a student exchange. The Erasmus project was all about bringing awareness to young people about the environment.

When we got to Spain we went to our hotel and went out to eat, after that we went to sight see in Madrid a bit. On Tuesday, we went to visit the school and the Erasmus students in Rivas Vaci Madrid - a district in Madrid. We did a few ice-breaker activities in order to get to know everyone. We had lots of fun! The next day we started the day off with an environmental workshop- we analysed the results of a questionnaire that the students, teachers and parents from Spain and Poland were asked to do with the Spanish students. After that we went on a bus tour around Madrid. The weather wasn't the best, but the views were still amazing. Once we finished the tour we went shopping for souvenirs. On Thursday we went to Alcala de Henares, a student village where Miguel de Cervantes studied. After a tour of the village and an outdoor game we went to a park where we played "laser tag" and went on a massive zip line. It was so much fun! On Friday we spent most of the day continuing the workshop from Wednesday, we did a poster for the next day science fair and created a game where we had to do some cable routing. We also presented our school to the Spanish students and they did the same. On Saturday we went to the school again where the science fair took place. There were so many amazing stations where you could learn so many new things about physics, chemistry, biology and even geography. On Sunday we were supposed to come back to Poland, but we had an adventure where we didn't get to the airport in time for our flight, so we had to go to the Spanish students' houses and sleep there. Finally on Monday we went to the school for the last time, said our goodbyes and went to the airport and came home to Poland.

Overall, it was an amazing experience. I loved meeting loads of new people and visiting new places. I would recommend visiting Madrid to everyone, it's beautiful!
